Latin America and the Caribbean

Planning & Design Youth & Livelihoods Resilience 4 Cities

Goal 11 - Make cities and human settlements inclusive, safe, resilient and sustainable Goal 13 - Take urgent action to combat climate change and its impacts

## **Summary**

If you could experience the city from 95 com – The height of a 3-Year-old – What would you change?

This is the core question Urban95 seeks to answer on behalf of the babies, toddlers and caregivers who rarely have a voice in city policy, planning or design. We do this by helping city planners, urban designers, and other urbanists understand how their work can influence child development.

## **Background and Objective**

Urban95 is a global initiative that supports the healthy development of young children growing up in cities. These include: Tel Aviv, Tirana, Boa Vista, Istanbul, Lima, Recife, Udaipur, Pune, Jordan / Azraq, Bogota, Sao Paolo, Aracaju, Fortaleza, Campinas, Jundiai, Pelota, Illheus, Crato, Brasileia, Ubirata, Niteroi, Caruaru, Piura, Amsterda, Bhubaneswar. We work together with city leaders, planners, designers, advocates, communities to bring a child-lens to every layer of city decision-making to improve access to quality services, sustainable mobility and vibrant public places. We are driven by a simple question: If you could experience the city from 95cm - the height of a 3-year-old - what would you change?
