

Urban Agenda Platform

The global platform for sharing progress, action and knowledge on the implementation of the New Urban Agenda to achieve sustainable urban development.

Berbera Urban Regeneration: Green park

Climate Action Solution Category

Sustainable Development Goals

Resilience 4 Cities

Goal 13 - Take urgent action to combat climate change and its impacts

Summary

Berbera has a very dry climate, marked by high variability, low precipitation, very high temperatures, extreme weather events and strong dusty winds.

Background and Objective

There have been environmental degradation and habitat fragmentation as a result of deforestation, erosion, droughts and unsustainable agriculture, these have led to habitat loss.
